INTRODUCTION

With its punchy turbocharged engine, low ground clearance and precise go-kart handling, the MINI Cooper S guarantees you as much fun as mechanically possible. DESIGN

There's no mistaking a MINI when you see one. They always stand out and put a smile on your face. What's more, the closer you look, the more clever details you'll discover. Such as these elliptical door rings, that complement the shape of the instrument panel.

SAFETY

Six airbags as standard, disc brakes all round, Anti-lock Braking System (ABS with CBC, EBD and Brake Assist), Automatic Stability Control + Traction (ASC+T) and optional Dynamic Stability Control (DSC) make the MINI Cooper S one of the safest driving experiences you can have.

ENGINE

The muscular bonnet of the MINI Cooper S conceals an engine that's bursting with energy: a twin-scroll turbocharger paired with a six-speed gearbox, Overboost function and a whopping 184 hp. This is an engine able to pack a punch whenever the need arises.

Fuel consumption combined 48.7 mpg
CO₂ emission (g/km) 136

DRIVING EXPERIENCE

It's not just the powerful engine that makes the MINI a thrill to drive. Its low centre of gravity and "wheel at each corner" design concept give the MINI go-kart style handling for a uniquely invigorating ride. This is enhanced by the multi-link rear suspension which keeps the wheels on the road at all times, so you can really put your MINI through its paces.

WHY BUYING A MINI MAKES SENSE

Class-leading drive, build quality and those really satisfying chrome rocker switches by the cup holders are all great reasons to buy a MINI but that's certainly not the whole story. Here are some other things you might find interesting:

LOWER EMISSIONS AND LOWER FUEL CONSUMPTION

MINIMALISM is our name for a range of engineering advances that have resulted in a reduction of between 19 and 28% in emissions and a substantial increase in fuel efficiency across the MINI range. For example the MINI Cooper D achieves 72.4mpg on the combined cycle and emits only 104g/km of CO2. This has a positive impact on your annual car tax.

Compare your favourite MINI model against other cars on www.mini.co.uk/comparemini to see just how well we perform.

SERVICING

But won't a MINI be expensive to service you ask? Nope. We've made sure of that by offering every new MINI owner their first 5 years servicing (or 50,000 miles whichever is sooner) for a one off payment of only £200. We call this MINI tlc. And for even more peace of mind, with MINI tlc XL you can get 3 more years or 30,000 miles of servicing for just £370, that's up to 8 years or 80,000 miles servicing for £570! For further information including the full terms and conditions please contact your MINI Dealer.

FLEXIBLE FINANCE

It's these slow depreciation rates that allow MINI Financial Services to offer you a flexible way to get into a MINI by giving you options at the end of your agreement*. Our Select product offers you fixed regular payments at a level you can afford and the opportunity to change your MINI for a new one every 2-4 years without any hassle*. What's more, we'll guarantee what your MINI will be worth at the end of your agreement if you decide to hand your MINI back so you don't have to worry about depreciation. While we're at it we can also insure you at competitive rates, all dependent on your personal circumstances of course. All of this can be done at your dealer when you order your new MINI.

OUR DEALERS

Last but certainly not least, our lovely dealerships. Our dealers take a lot of pride in making their showrooms nice places to visit and staffing them with friendly, knowledgeable staff. Our service areas are filled with MINI specialists who know them inside out and are ready to lavish them with care.
